

Special Cleaner – Highly effective Alkaline Cleaner

1. Description

VIP Special Cleaner is a concentrated, alcalic, highly active solvent-free cleaning agent with astonishing cleaning characteristics. The material can be used on almost all surfaces without any problems. Specially developed to clean extremely heavily soiled plastic surfaces, particularly suitable for removing separating agents before painting and varnishing, in addition for the removal of silicones on rubber and plastic. Good waste water properties, contains no phosphate.

- High cleaning strength, Removes oils, grease, soot, silicone like dirt and other dirt
- Water-soluble, can be diluted with water in any ratio
- The alkality kills bacteria and the solution is up to 95% bio-degradable

2. Application

VIP Special Cleaner is used in the industry, general business and in households. The product is suitable for use in spray guns (power-wash) as well as by hand.

- All solid surfaces, motor-body, painted surfaces on cars, vans or buses
- Plastic components, casings, panelling, interior and exterior
- Plastic covers, convertibles.
- Components, machines, motors and tools
- Ceramics, tiles, PVC, floors, upholstery, carpets
- Plastic furniture, housings (computers)

3. Directions

- Spray Special Cleaner directly on surface to be cleaned and rub in with soft cloth
- Don't let dry on but wash down with clear water and damp cloth or sponge to avoid film
- Don't use on hot surface and under direct sun
